

HEALTH AND SAFETY

Your safety and enjoyment is our primary concern. Bees are living animals. They are NOT domestic pets. Some people can be allergic to bee stings. It is important that we are aware if you have had any adverse reaction to any type of sting in the past.

We would appreciate if you would complete this questionnaire. Your answers will be treated with the greatest confidentiality and the form will be destroyed once you have completed the course.

In anticipation, thank you.

.....

NAME -----

Have you been stung in the past?

If you have, how did this affect you? -----

Did you require medical assistance?

What medical conditions (if any) do you have that you believe we should be aware of (e.g. epilepsy)?

Signature ----- Date-----

* Please circle the answer that applies to you.
